Appeal to the Medical Fraternity

In light of the tragic and brutal death of a Post Graduate Trainee at R.G. Kar Medical College and Hospital, the medical fraternity has experienced an immense and unbearable shock. This event has led to various forms of protest, including a widespread cease-work movement among medical practitioners, particularly junior doctors.

The West Bengal Medical Council deeply empathizes with the sentiments of the medical community and stands in solidarity with them during this difficult time. However, it is with great concern that we observe the immense suffering of the general public, who rely heavily, if not solely, on government-provided medical care. The ongoing cease-work by junior doctors at various medical colleges has left these individuals without alternatives for essential medical treatment.

Given that the State Government has addressed a significant portion of the demands raised by the medical practitioners in government medical colleges, and that necessary arrangements for their safety and security have been implemented in accordance with the directive of the Hon'ble Supreme Court, the West Bengal Medical Council earnestly appeals to all striking medical practitioners and students to call off the cease-work and restore normalcy in our medical colleges and hospitals.

By doing so, we can stand united in our commitment to serve suffering humanity and ensure that proper medical care is provided to those in need.

President,
West Bengal Medical Council
